

Yue Chen

Email: yc2949@cornell.edu

Phone: +1(607)-339-8942

Citizenship: China

Birthdate: April 1, 2000 Hohhot Inner Mongolia, China

Education	Cornell University Ph.D. in Mathematics Advisor: Prof. <i>Alexander Betts</i>	Ithaca, New York, USA Expected 2030
-----------	--	--

The Chinese University of Hong Kong M.Phil. in Mathematics Thesis: <i>Representation of p-adic Groups and Reduction to Depth Zero</i> Advisor: Prof. <i>Jiu-Kang Yu</i>	Hong Kong 2025
--	-------------------

South China University of Technology B.S. in Mathematics GPA: 3.8/4.0 Thesis: <i>Simply Connectedness of Fargues-Fontaine Curves</i> Advisor: Prof. <i>Hao Sun</i>	Guangzhou, China 2023
---	--------------------------

Publications	Geometric Height on Flag Varieties in Positive Characteristic , with Haoyang Yuan, ArXiv preprint.
--------------	--

Research experience	Summer research, Peking University Algebra and Number Theory Summer School.	2024 summer
---------------------	---	-------------

Research Statement	I am passionate about number theory and arithmetic geometry more broadly. My current project focuses on understanding various Tannakian groups arising from different cohomology theories in arithmetic geometry. I am also interested in various aspects of the Langlands program.
--------------------	---

Teaching experience	TA, Department of Mathematics, The Chinese University of Hong Kong 2023 Fall – 2025 Fall
---------------------	---

Talks and presentations	“Weil conjectures imply Ramanujan conjecture” <i>Olivetti Club</i> , Cornell University Talk on Ramanujan’s tau function, modular curve, Hecke action, Eishler-Shimura relation and Deligne’s proof via the Weil conjectures.	2025 fall
	“Hodge-Tate decomposition for p-divisible groups” <i>Student seminar</i> , Cornell University Semester-long seminar as the organizer.	2026

Honors and grants	Cornell <i>Graduate Fellowship</i>	<i>2025</i>
	CUHK <i>M.Phil. scholarship</i>	<i>2023-2025</i>
	<i>Chinese National Scholarship</i>	<i>2020</i>
Service and activities	<i>Organizer, Student number theory seminar, Cornell University</i>	<i>2026 spring</i>
	<i>Mentor, Directed Reading Program on Degline-Lusztig variety</i>	<i>2026 spring</i>
	<i>AWM ZigZag mentor</i>	<i>2026 spring</i>
Skills	Languages: English, Chinese, read math in French.
